

EXCON in brief

EXCON is the leading quality service provider for efficiency enhancement and outsourcing

EXCON is your service partner in minimizing risks, reducing costs, increasing earnings and optimizing quality.

We set the quality standard as an expert partner to our clients in the financial, automotive and insurance industries, with defined service packages from an innovative service provider in complex,

sensitive and critical business processes, and to cover new requirements.

Our core competencies can be found in performance, quality and risk management, and in the development of individual, customized solutions and IT and web applications.

With our solutions and strategies, we provide [our clients](#) with effective, high-quality support in optimizing their business processes and [service quality](#), and in solving defined commercial and legal problems.

In this way, we assist our clients in securing and increasing their commercial success in the long term, and in issues of [compliance and governance](#).
