

Risk Management

Reduce your credit risk

Our risk management service reduces risks resulting from non-contractual behaviour on the part of dealers, retail outlets or final customers. We provide you with precisely that mixture of support and scrutiny that enables you to strengthen your customer relationships and at the same time minimize your credit risks and risks of bad debts.

Our main focus in that connection is on prevention and support. The objective is to retain the customers, as termination of the contractual relationships with them demonstrably causes greater losses for the lender.

We base our services on the use of state of the art technology, an international, excellently qualified field service network, and more than 20 years of experience with prestigious clients.
