

Clearance Services

Professional collection and securing in situ

In spite of all the checks and risk management, overdue loan and leasing payments cannot be avoided. EXCON therefore offers you clearance services, first aimed at averting losses and then, if damage prevention fails, limiting the losses as far as possible.

Our aim is to preserve long-term business relationships for the benefit of [our clients](#). The following rule applies:

The earlier you act in the case of overdue payments, the greater the chance of saving the contract. That is why we first examine the borrower's situation, present financing options and then jointly develop an action plan.

If the customer is nonetheless unable to pay the outstanding amounts, he is left with the possibility of surrendering the financed or leased object and agreeing to cancellation of the contract.

This is the only possible way of extrajudicial impounding of the goods without any subsequent risk of litigation. As the final option, we effect the seizure and return of financed or leased assets throughout Europe. If required, and with a corresponding authorization, we will also report criminal offences to the police and request prosecution.

On the basis of its cooperative and [professional approach](#), EXCON achieves a success rate of over 96 percent. The realization rate is greater than 46 percent. Our experienced and excellently trained staff are highly presentable and well-mannered, therefore avoiding any adverse press attention.

Our services at a glance:

- Loss prevention: Advice and support to clients in the case of default on financing or leasing contracts with the aim of reaching amicable agreement or restoring contract performance before termination comes about
- Comprehensive support service: Written reminders and demands, support by telephone and on location, and examination of the property
- On termination of loan or leasing contracts: payment collection and Europe-wide seizure and return of leased or financed goods
