

Immediate Assistance

Immediate initial action to limit the effects of water damage

When water damage occurs, it is essential to take rapid initial action to limit the damage, and to record the damage precisely. EXCON provides a special model for active damage control. We have an extensive network of qualified and certified tradespeople who can be called in around the clock to analyse the damage situation and secure structures, systems, household effects and contents immediately. The specialists deployed have the know-how required for initial reaction to all kinds of water damage and correct remediation. Rapid assistance is a matter of priority for us when disaster strikes.

Our services at a glance:

Immediate initial action

- Salvage work, removal of contents into storage
- Removal of damaged equipment and systems
- Extraction of water and sludge
- Other rescue work

Leakage location and repair

- Minimally destructive location of leaks
- Exposure and securing of components
- Repair of the leakage

Drying

- Quotation for professional drying
- Performance of efficient, state of the art drying (equipment / process)
- Documentation of measurements during drying

Our free service number: 0800 - 8 123 321

During the drying work, we will on request compile a detailed proposal for final restoration, covering all the work within our own network of tradespeople. All our network partners are guided in their actions by the principle of keeping damage to a minimum, and are of course managed by ourselves as required by the [insurance](#) and [property industries](#). This means that all remediation work performed is documented in corresponding measurement records, thus assisting in handling of the claims.

Our clients in the [insurance](#) and [property sectors](#) benefit from low process and transaction costs, uniform standards and prices, satisfied customers and, last but not least, from a central contact who also relieves them of the tasks of selecting and supervising the craft firms.
